

Partnering for Success: Empowering Bundled Payment Strategies

[MSKcarealliance.com](https://www.MSKcarealliance.com)

Our Story

MSK Care Alliance was formed by independent Orthopedic providers who know that the landscape is shifting toward bundled payment models.

MSK Care Alliance brings a single solution, allowing for like-minded independent Orthopedic groups to excel in bundles through a framework with proven results.

Our Mission

Our Mission is to empower value-driven healthcare in an orthopedic landscape.

Our Values

- Preserve provider independence
- Foster collaboration
- Enhance operational excellence
- Unlock opportunities for growth and success.

Solving Key Pain Points

01

Health care is changing

CMS mandatory bundles are setting the stage for an increasing shift to value-based care to combat rising costs.

Constant innovation and sophisticated data infrastructure are necessary for continuing to operate and profit in the changing healthcare ecosystem.

02

What is the problem?

Rising costs to operate and innovate are straining practices. With limited negotiating power, practices are finding it difficult to step into bundled payment arrangements.

The only choice has been to cobble together disparate solutions to participate or sell to Private Equity.

03

How we solve the problem

MSK Care Alliance offers a ready to launch package to empower participation in bundle payments.

This standardized process allows groups to partner together in a single negotiation – providing greater market share, increased revenue, and sustained independence.

Are you ready to advance your bundled payment participation journey?
